

# Smarth Cap Phase II (OCM analysis)

Asset: BHP Technology

## Business Opportunity:

BHP Technology required a new safety tool to control the fatigue and drowsiness of drivers on the MEL-Antofagasta route.

## Main Achievement:

Lowered the accident rate on the route due to fatigue and drowsiness.

## Solution:

Vantaz designed an OCM strategy for the project. The main focus points were:

- Training strategy
- Communications strategy
- Stakeholder management strategy
- Change monitoring.
